

**REMARKS:**

Claims 2-40 were presented for examination and were pending in this application. In an Official Action dated May 5, 2005, claims 5-37 were allowed and claims 2-4 and 38-40 were rejected. Applicants thank Examiner for examination of the claims pending in this application and addresses Examiner's comments below.

Applicants herein cancel claims 2-4 and 38-40. These claims are canceled without prejudice to expedite the prosecution of the application in a manner consistent with the Patent Office Business Goals, 65 Fed. Reg. 54603 (Sept. 8, 2000). In canceling these claims, Applicants have not and do not narrow the scope of the protection to which Applicants consider the claimed invention to be entitled and do not concede that the subject matter of such claims was in fact disclosed or taught by the cited prior art. Rather, Applicants reserve the right to pursue such protection at a later point in time in a subsequent related application and merely seek to pursue protection for the subject matter recited in the remaining claims presented in this submission.

Based on the above Amendment and the following Remarks, Applicants respectfully request prompt allowance of this application.

In addition, Applicants respectfully invite Examiner to contact Applicants' representative at the number provided below if Examiner believes it will help expedite furtherance of this application.

Respectfully Submitted,  
KWOK HUNG SI, et al.
